Member Company of Refrigeration Skillnet

Refrigeration Skillnet is an industry-led training network for companies in the refrigeration, air-conditioning (RAC), heat-pump and fire engineering sector in Ireland.

The vast majority of network members are engineering contractors and sub-contractors involved in commercial refrigeration, industrial refrigeration, air-conditioning, heat pumps, fire suppression, fire systems, fire extinguishers, fire alarms, emergency lighting, M&E building services or a combination of all these. Also included in the membership are trade wholesalers, distributors and specialist manufacturers.
