

Certificate of Recognition

Building Products
Solution Partner

Siemens plc, Smart Infrastructure, Building Products confirms that

Sirus Engineering Systems

meets the level of qualification, **Expert Level**, and is supported and acknowledged as such.

This level of certification has been created for our partners who have comprehensive knowledge of the Siemens Desigo solution and have the capability to deliver complex projects including integration and energy efficiency and offer national coverage with certified trained engineers.

This certificate is valid until 31 December 2024

Certified August 1993

Farnborough, January 2024

Peter Colverd
Head of Building Products GB&I
